Subject: Announcement for Professional Internship Program for International Experience (PIPIE)

Dear Mr. Anwar Hossain,

We pleased to inform you that we are open for accepting qualified young professionals from all of our member countries who are interested to enhance their experience in international capacity building for TVET professionals and gain multicultural work experience through the CPSC **Professional Internship Program for International Experience (PIPIE)**.

The PIPIE is instituted as part of the CPSCs effort to provide opportunities to the newly graduates and young professionals in the member countries, to develop awareness and apply the related principles, concepts, methods learned in their respective areas of studies; gain international practical experience through the various aspects of CPSC operations and training activities; and increase their understanding on relevant and emerging issues in TVET in their country and/or at Asia Pacific regional level through programs and research-based project/s.

In this regard, CPSC invites your good office to disseminate this information to achieve greater interest and participation among young professionals in your county, and if possible, recommend a potential applicant to this internship program.

The successful PIPIE applicant will be provided with US\$250 monthly allowance for the whole duration of his/her internship, meals during workdays, accommodation and other services at the CPSC Hostel located at CPSC headquarters in Manila.

The internship is for an initial period of 6 months (Short-term), with an option to continue up to 12 months (full-term), subject to review and evaluation of his/her performance.

The detailed announcement, qualification requirements, application guidelines and application form are provided in the CPSC website: www.cpsctech.org/current-job-vacancies/professional-interns which may be referred to prospected young TVET professionals who are interested to apply. Files are also attached for quick reference.

Kindly be guided that confirmation of internship will be on a first come first serve basis and will be given preference to individuals who possess desirable qualifications in relevant TVET fields. In the event that all internship slots have been filled, the other qualified PIPIE applicants will be accepted/appointed immediately after the completion of each internship appointment.

We look forward to having more opportunities to contribute in building professional capabilities and deepening quality work culture in your country through the PIPIE.

With best regards,

Ramhari Lamichhane, PhD

Director General

Colombo Plan Staff College for Technician Education

PROFESSIONAL INTERNSHIP PROGRAMME FOR INTERNATIONAL EXPERIENCE

The Colombo Plan Staff College for Technician Education (CPSC) open its doors to fresh graduates and/or young professionals who are interested to enhance their experience in international capacity building for TVET and gain multicultural work experience through the CPSC **Professional Internship Program for International Experience (PIPIE)**. 28/07/2024 ✓

About CPSC

The CPSC is an inter-governmental international organization for Human Resources Development and a specialized agency of the Colombo Plan in Asia and the Pacific region. It was established on 5 December 1973 to assist the member countries of the Colombo Plan in developing and enhancing their technical education systems.

The main functions of CPSC include:

- Provide training programs of further professional education and training to persons responsible for the planning, development, administration and supervision of TVET and persons in key supporting roles;
- Conduct conferences, symposia, and workshops on various aspects of TVET;
- Assist in the conduct of projects in the field of staff and curriculum development and other projects aimed at the effective utilization of resources for learning and teaching;
- Promote, coordinate and undertake research and development projects for knowledge sharing and benchmarking in TVET;
- Advise and assist member countries in developing their technical teacher education and training facilities;
- Collect and disseminate information on technical education and training; and
- Act as a facilitator of member countries in the transformation of TVET framework by modifying the training and development strategies, program offerings and research and development efforts.

To date, CPSC maintains the active membership of 16 countries which are provided with capacity building programs in technical and vocational education and training (TVET) programs for human resources development.

About the PIPIE

This International Internship Programme is instituted as part of the CPSC's effort to provide opportunities to the newly graduates and young professionals in the member countries to develop awareness and apply the related principles, concepts, methods learned in their respective areas of studies, gain international experience through the various aspects of CPSC operations and training activities, and increase their understanding on relevant and emerging issues in TVET in their country and/or at Asia Pacific Region through capacity-building programs and project/s.

Roles and Responsibilities of the PIPIE Intern/s

Depending on the Professional Intern's specialization, he/she will be involved in the planning and implementation of capacity building programs and projects organized by CPSC. In some cases, Professional Interns are also assigned to assist the Faculty Members in conducting research work in support to the development academic materials used in implementing CPSC programs and projects.

Qualifications and Requirements

- ❖ Bachelor's Degree holder from a reputable University, or Diploma holder with at least 3 years of work experience in any of the following specialized fields:
 - *Technical and Vocational Education and Training (TVET) and allied areas*
